THE CONFETTI SUNSET

CONFETTI WINS!

The newest Great Bozo delights us with his winning speech

Well, it's fucking happened Fools, Confetti on top.

Can't think about what to say, really, **Ol' Big T** said I should still say some stuff, but I've got nothing to say.

'Cuz let me tell you one thing, I ain't a clown of words, I'm a clown of action.

Ya want a joke. Go to stand-up.

Ya want a prank. Then you've got your clown.

This ain't a victory for me, this is a victory for all of us.

For all the Fools that died on their first job, and for all the fools that got past and are stuck in the mid rank doing absolute nothings until they die in some boring way.

Fuck if I know what to do with this title, but I know what I won't do. I ain't about to use it to make your lives even more hellish, I dunno if I'll make 'em better, but you know what? Any of the other psychos won, and I assure you there would be three of you fused together to make some sort of Bozo Totem destined to be unleashed in churches or some shit, yeah, I'm mainly talking about Cachito, that guy is nuts.

Fuck, need to end this, ugh. Let me think.

Got it. Thanks, all of you, I'm here because of you, and because of your efforts, all the power to the Fools.

And to the rest of you, better watch the fuck out, 'cuz we are bringin' the full circus for this one.

Wonderful Hilaria, everyone.

Dismissed!

Big thanks to Zammy for helping the Sunset Team with keeping track of the event!

BREAKING NEWS!

Public speaker kidnapped during school shooting

By Adam Carver, May of 2070

During a visit from a public speaker five maniacs raided a highschool in Night City. Both **Night Corp and the NCPD have little to say** beyond the fact they are looking into it.

Both the **public speaker and her entire security detail were taken** by these unknown individuals. Unfortunately, there were casualties among the student body, namely **one unlucky student caught in the crossfire** as live rounds were used. But many of the students are left terrified and their parent's concerns unanswered.

The **public speaker** being a woman in her late twenties **named Jody Umane**, a daughter of a product development manager for Sanroo. She had ran from her father's influence due to unknown reasons and later was noted that she at some point went over the edge **and became a cyberpsycho**. She **had recovered from cyberpsychosis** thanks to an unnamed private clinic that works under the jurisdiction of **Trauma Team.** Her remarkable recover and the tales of her struggles were to be a warning to students about the risk of unsafe cyberware installation.

The Five individuals have the following descriptions based on witness recounting and CCTV footage:

- **The first individual** was noted to be wearing all black with glowing red eyes and messy hair, their voice was apparently heavily modulated, and they wielded an assault rifle.
- **The second individual** was noted to be a woman with allegedly dark blue hair, wearing a mask and in businesswear like attire, supposedly entering the scene holding the 5th person hostage as an act.
- **The Third individual** was an unknown person wearing white and black armour of some kind, while wielding a bow, this individual had knocked Jody unconscious with some sort of unknown means.
- **The fourth individual** was not reported being seen on cameras but according to eye witness accounts looked as if they were wearing armour like that of Trauma Team but unmarked.
- **The firth individual** was a blonde woman with pig tails, wearing a leather jacket over a brown tube top as well as a skirt. She had disarmed multiple members of the security detail from the event on camera with the loud exclamation of not knowing anything that is going on.

All these individuals if spotted should be reported to the appropriate authorities as they are a risk to the city's youth.

The Augmented Optic

Eagletech is back... with a vengeance!

The newest Eagletech Rat Snatcher shows promise, but we are yet to see results.

Avid readers of The Augmented Optic may remember that I'm quite fond of Eagletech, it's this "small fry" sense that, let's be honest, does not apply to these such cases, let's not forget that Eagletech rests under the Zetatech wing, but even then, I like Eagletech.

I like Eagletech because I like bows, and no other competitor does them like Eagletech, seamlessly meshing a weapon from times of old, with the new, flashy and overly designed reality we live in today.

But, let me talk about the Rat Snatcher for a little. If anyone remembers the Faisal's Dead or Alive, back from the time of the red, then the Rat Snatcher shouldn't be any news. In a small acquisition process (I'm not talking patent buy-out, I'm talking a group of armed individuals broke into the Faisal's Customs offices and kidnapped a bunch of designers) Eagletech managed to get all the blueprints, and repurpose the Dead or Alive into a more convenient attachment, available for all your favorite weapons!

Unless your favorite weapon is a Rocket Launcher, in which case:

1- Silverhand stopped being cool 30 years ago.
2- You are shit out of luck.

So, you heard it here first punks, get 'em now, because these little babies might just start rocking the streets very soon!

Eagletech Rat Snatcher

Type: Weapon Attachment

Cost: 500eb (Expensive)

Eligible: All Non-Exotic Ranged Weapons fired with the Shoulder Arms and Archery Skill.

Description: When wielded in two hands, the weapon can also be used as a Net Launcher. The net launcher holds two nets in its magazine and fires at 1 ROF using the Shoulder Arms or Archery Skill, but uses the Shotgun Slug range table, except that it cannot hit a target further than 25 m/yds away. Requires 2 Attachment Slots. On a hit, the net grapples the target. Only one net can grapple a target at a time. While grappled by the net, the target cannot use their Move Action. The target in the net can't make use of a weapon that requires two hands and takes a −2 to all physical Actions for as long as they remain in the net. The net has 15 HP and is destroyed beyond repair when it reaches 0 HP. Firing a ranged weapon into a deployed net from outside of it will equally damage the net and the target grappled by it. t. Escaping the net requires a DV 13 Contortionist Check, which can only be attempted by the target inside the net, or a DV 13 Brawling Check which can be attempted by anyone. Succeeding at either of these destroys the net beyond repair.

Replacement nets are 50eb (Costly) each.

Night City Fashion

Because "Slay" can mean two things at once

March 2070

What a...

What a crazy month.

I'm gonna be honest with ya darlings, I was taking a nice relaxing bath in my house, and next I know, I have a sack of potatoes over my head, I was being fed birthday cake and cheap sodas for a whole month, every single day I could hear laughter all day, laughter all night, I'm pretty sure I micro-napped while the people laughing were breathing.

Hell isn't fire.

Hell isn't mud.

Hell is laughter.

Hell is others.

I have some stuff to look at, darlings, examine and stuff, and...

Yeah.

This month's fashion is Urban Flash or something, I don't care.

Do this city a favor and kill a clown.

This Month's Fashion!

May's fashion of the month will be Urban Flash. If you're wearing at least one piece from either or both fashions, you gain a +2 to Wardrobe & Style!

If you have at least 3 pieces of High Fashion you're wearing, you're always in fashion no matter the monthly fashion.

NIGHT CITY TODAY NEWS

A day in the life...

What do NC Citizens get up to?

In the past month, we have been questioning Night City denizens and collect their responses about different topics. And today, we are leaving you with a new permanent section of our screamsheet.

Real people, real answers. Welcome to a day in the life.

How do NC Citizens carry their self-defense instruments?

Anonymous man of rain: "My gun may look like I drag it behind me every day, but that's because I know that a proper gun is eternal! I bring it strapped to my duffel bag, or in my back. Unless we are talking about my **actual** weapons, wanna know where I store them? Under some kick-ass gloves."

What are your thoughts on the everyday violence in Night City?

Anonymous exec: "Enough currency can get you whatever you need. But there's only one universal currency. Violence. Max Weber wrote that the defining concept of a state was a monopoly on violence. There are lots of problems you can talk your way through. There are lots of problems you can think your way through. But every problem, every problem can be solved with a sufficient degree of violence. Those with the ability to commit acts of violence, become the state. Because they solve the problems."

What are your thoughts on the street narcotics circulating the streets?

Anonymous Nun: "The lord has given us a temple; a temple must be taken care of. A temple is holy, in and on itself. To taint one's temple with the devil's poison, so easily accessed by the populace, for the devil knows damnation must be tempting, but it must also be affordable. Such thought must not wander one's mind, should we wish to still attain salvation."

THE BODY LOTTERY

"Spin the wheel of damnation"

Kira

FIRST BLOOD

Kira died as she lived, covered in blood, screaming, and with a shotgun in her hands.

THE BODY LOTTERY

"Wagers made in blood"

TANK!!!

????-2070

TANK!!! dies in a workshop explosion due to an IED mishap. 13 injured, 7 dead.
3 NCPD officers then died trying to clean the workshop, triggering another IED mine.

THE BODY LOTTERY

"Wait what the fuck is that a sentient car"

Diesel

Diesel hit a curb at 160 mph, proving once again it's the drunk crashers that cause accidents.

Then a Piano fell on top of them.

NIGHT CITY TODAY NEWS

BREAKING NEWS: War in our doorstep?

Arasaka and Militech trade fire in Heywood Streets

"This just in from Heywood: smoke, sirens, and corporate steel in the sky. N54 News confirms eyewitness reports of a high-speed chase and ***open combat between operatives of Militech and Arasaka*****—on our streets.***"*

In a shocking breach of international and local accords, both **Arasaka and Militech AVs** were sighted streaking low across the skyline this morning, trailing each other into the heart of Heywood before erupting into a full-blown firefight on **Trade Street near the Crossline District**. Security footage and street cam intercepts reveal **autogun fire and deployment of military personnel from AV's** exchanged between the two megacorps, with **civilians caught in the crossfire**. NCPD has confirmed at least **six civilian casualties** and **over a dozen injuries** from stray fire, with more expected as rescue teams continue combing the scene.

A bullet-riddled **nomad vehicle**, assumingly having carried some kind of high-value unknown, was found **crashed and totaled** at the epicenter of the firefight—its occupants **missing or dead**. Initial reports suggest this vehicle may have been the target of both corporate forces, though as of now, **no statement has been released by either corporation**.

This incident marks a direct violation of post-Collapse accords restricting **Arasaka presence within Night City limits**. City officials have yet to comment, but sources within the Mayor's Office describe the council as being in **"emergency session"**, with **public backlash and protest expected by morning**.

The AVs were reportedly first spotted entering Heywood from the **unstable Pacifica district**, where law enforcement presence has been nearly nonexistent for months. With Pacifica slipping further into economic and social collapse, the **war zone is bleeding into the city proper**.

"We've been warning about this for years," says security analyst Kiara Zhang. "Pacifica's a dry brush forest, and these corps are bringing the matches."

As tensions escalate and the skies grow louder, Night Citizens are left asking:
How close is the next war? And who's going to protect us this time?

Stay tuned.
This is **N54 News – No Truth Too Dangerous.**

THE NEON SUNSET

WANNA HELP?

Fuck it, I'm taking this space for a self-congratulation message.

Neon Red is on its 5th post-reset month, and to be honest, we couldn't be happier.

If you read our last Sunset, we had a Hilaria Event for April, and, in general, events on LCs are just a tricky thing to do, nonetheless, numbers at the end showed that a good number of GMs took the NPCs we painstakingly created and ran games with them, just to promote the event spirit.

Thanks to our GM community, we managed to have a Hilaria winner, and a few runner ups.

A big heartfelt "thank you" to the GMs, for keeping this community alive, and putting up with our stupid ideas.

And a big heartfelt "thank you" to you, for reading this.

And, of course.

Thanks, Neon Red.

Keep writing.

Keep screaming.

Keep shouting

Keep fighting, punks.

But I hear you asking, random Discord user that found this PDF without any context...

What the fuck is Neon Red?

Neon Red is a Living Community for Cyberpunk RED, which, in January of 2025, underwent a Reset to adapt the Edgerunners Mission Kit to the server. We are currently in a golden age for new players, as the server is brimming with new characters to meet, new fixers to work under, and new threats to be discovered.

The best part?

Due to the nature of Living Communities, Neon Red does not ask much commitment from its players, games are made to be picked up, played, and then we might never see you again if you didn't like it. No scheduling issues, no bad blood, pick a game that fits your schedule and start playing immediately!

If you are willing to give our community a try, then hop on in, we are missing a vital piece, and that piece is you.
